ARCHITECTS

November 1, 1985

To Whom It May Concern:

Marc Diament was an employee of our firm for approximately 1-1/2 years. During that time it became apparent that Marc's whole life revolved around design. He works incessantly. He knows the aesthetics of architecture.

I would highly recommend Marc for his ability to know and understand design, and would be happy to discuss these abilities with you by telephone.

Sincerely,

W. C. Muchow
