### **TO WHOM IT MAY CONCERN:**

I am submitting this letter of recommendation on behalf of Mr. Marc Diament, a Certified Professional Architect.

As a Superintendent of Schools, I have had an opportunity to work with several architectural firms and have developed close working relationships with a number of planners and architects. Mr. Marc Diament is an individual I have known since 1984. I first made his acquaintance when he was working as a planner with Mr. James Rowland & Associates. At that time, Roland & Associates were assisting the Zuni Public School District to plan and build a grades 6-8 middle school.

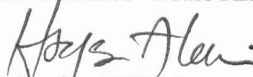

Mr. Diament immediately impressed our Building Planning Committee with his expertise, along with his willingness to listen to the needs and concerns of the committee. Mr. Diament is an extremely capable architect who possesses a strong ability to communicate ideas into functional and beautiful renderings and plans. Above all, it is Mr. Diament's honest and high personal and professional standards that allow him to effectively represent the best interests of his clients.

Every year, the new staff and students comment about the pleasant and functional facility that now houses our 6th through 8th grade students. The design of the building is open, bright, and greatly promotes comfort and learning. In addition, we have not experienced any structural or system related problems since construction.

If high standards, competence, effective communication, ability to bring in projects at budget and sensitivity to client needs are important to you, then I strongly recommend that Mr. Diament be contacted for an interview.

I am available to discuss this correspondence or any other matter related to my personal working experience regarding Mr. Diament. Thank you for your consideration in this matter.

Sincerely,  
ZUNI PUBLIC SCHOOLS

  
HAYES A. LEWIS  
Superintendent
